

SUSTAINABILITY Policy

Our sustainability policy encompasses various aspects of our operations, from equipment choices to waste management. The object of this policy is to provide all customers with confidence and complete satisfaction in all of Giidjaa Hire Hire products, practices, and people.

This Policy formalises our commitment to supporting the principles of environmental sustainability and recognises that a sustainable environment is central to our lives and our work.

The aim of our Sustainability Policy is to:

- Implement and monitor environmental actions within the company
- Communicate environmental initiatives internally and externally

Here are the key principles that guide our sustainability efforts:

Product Selection:

We prioritise the selection of vehicles and equipment solutions that have been produced in a sustainable manner.

We continually explore and integrate environmentally conscious options into our inventory.

Efficiency:

Reducing the consumption of natural resources in daily operations in all of offices and warehouses, including water, paper and energy.

We invest in energy-efficient technologies to reduce our overall energy consumption. Our commitment to efficient transport logistics aims to minimize our carbon footprint.

Waste Reduction:

Maximising the recycling of resources, including repair and up-cycling damaged or unused equipment to become a new product.

Sustainable Partnerships:

We seek out and collaborate with suppliers and partners who share our commitment to sustainability.

We prioritise local suppliers to reduce transportation-related emissions.

Employee feedback is valued, and we encourage ideas that contribute to our sustainability objectives.

Client Education:

Our goal is to foster awareness and inspire positive environmental actions within the our industry.

Giidjaa Hire Hire is dedicated to integrating sustainable practices to our business. By embracing these principles, we aim to contribute positively to the environment, reduce our ecological footprint, and inspire others within our industry to join us on this journey towards a more sustainable future.

Future technologies

While Giidjaa Hire is already investing in equipment and technology to future-proof its fleet, many more products and technologies will become viable in years to come.

This procedure applies to all individuals, employees (including Directors, executives and managers) contractors and their employees and other third parties and visitors to Giidjaa Hire premises working on Giidjaa Hire premises or performing duties for or on behalf of Giidjaa Hire. This includes all areas, sites and locations directly or indirectly within Giidjaa Hire operations.

Giidjaa Hire Hire is dedicated to integrating sustainable practices to our business. By embracing these principles, we aim to contribute positively to the environment, reduce our ecological footprint, and inspire others within the event industry to join us on this journey towards a more sustainable future.

Giidjaa Hire reserves the right to amend this Policy as required.
